

WP150 – Electric Water Pump

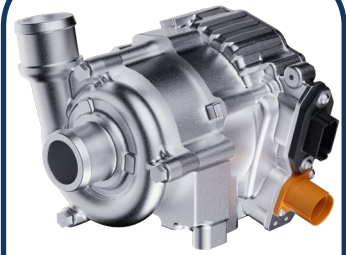

Product Overview

The Smart Flow® WP150 delivers high performance in extreme environments, powering cooling systems for off-road, power generation, and large vehicles—including fuel cell, diesel, electric, and alternative fuel applications.

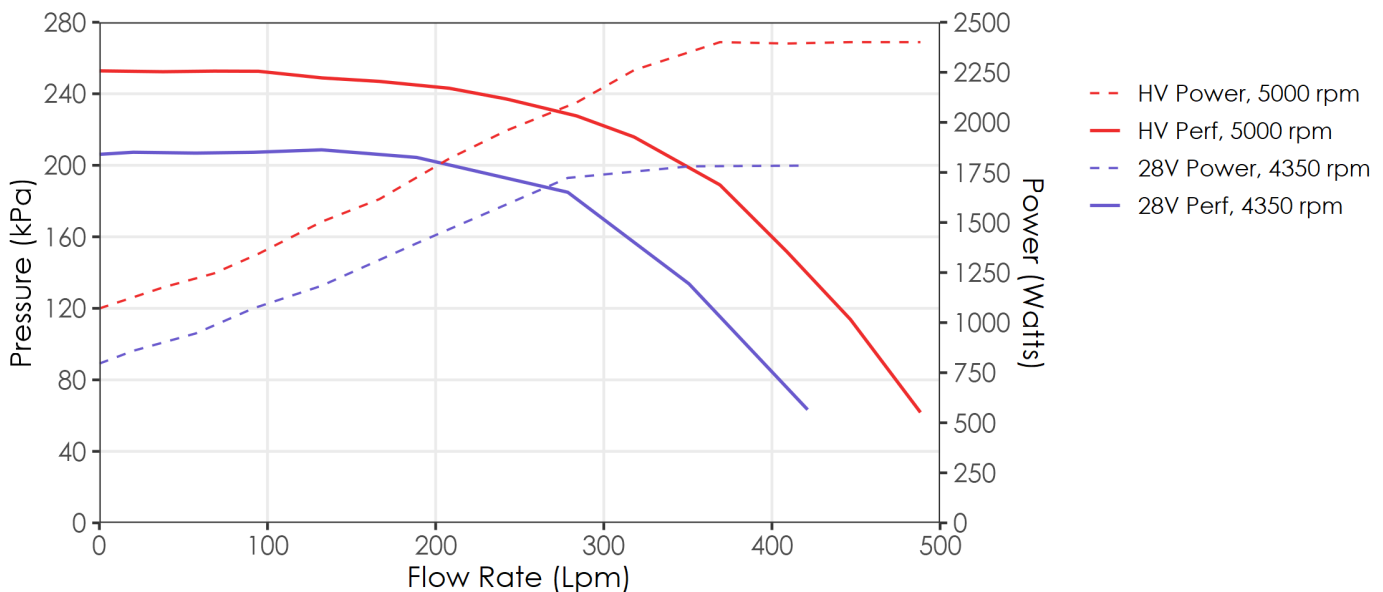

Up to 48V

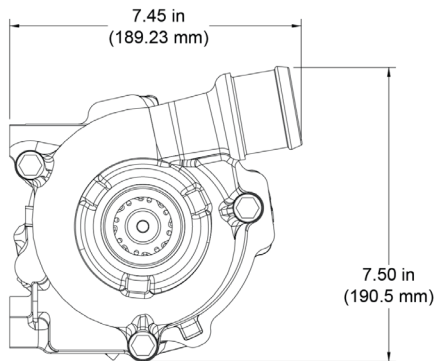

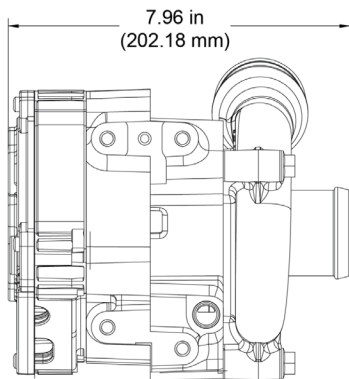

Up to 850V

Specifications

- **Rated Flow:** 240 LPM @ 160 kPa
- **Rated Motor Life:** 20,000 hrs
- **Weight:** 8.2 kg
- **Rated Voltage:** 12V / 24V / HV
- **Rated Temperature:** -40°C to 95°C
- **Hose Connections:** 50.8 mm

WP150 – Dimensions

EMP Core Products

- Thermal Management Systems
- Custom Cooling Modules
- Electric Fans
- Electric Water Pumps
- Electric Oil Pumps
- Heavy-Duty Alternators
- High Voltage Components
- CNC Machining
- Complex assembly
- Product Development
